

## Xmas Message from the National President

## IGD technical evening a huge success

Proudly supported by

Keith Bishop and George Ganzenmuller from Amcor, Karen Bevan and Nick Everitt from IGD

Both Karen Bevan and Nick Everitt from IGD were extremely topical and informative and the AIP can not express their gratitude enough for the evening.

The evening would not have been made possible without the support of the attendees and of course Amcor Fibre Packaging for their partnership of the event.

Thank you to everyone who showed their support and especially all the Interstate members that came along.

Perhaps one of the most successful nights for the AIP NSW in recent years, over 60 members and guests joined two renowned international speakers from IGD, a prominent retail consultancy based in the UK for what was a keystone event for the 2006 calendar.

Nick Everitt and Karen Bevan from IGD delivered a rampaging portrait of the retail markets across the world including Australia, drawing upon an array of statistical market analysis that their firm is known for, and highlighting the major trends of the retailers locally and abroad.

The presentation portrayed the new emerging markets and which retailers are present in them, the market shares of the majors, who's winning and who's losing and more. It was quite literally a half day covered in 2 hours with Nick & Karen running over time and assisting with high participant interest during question time.

An important night also for the AIP as we celebrated the award of Fellow granted

to Paul Haberland by Harry Lovell (former President). Paul has a long history with the AIP holding a number of executive positions in past years and presiding over a very tumultuous time in the 1980s. Paul has held a number of roles over his long career and is now the Oceania head of packaging with Nestle. The Association is lucky to have such a strong supporter and we congratulate him on his tireless commitment to the industry.

In addition, we also welcomed a new member, Ian Keating who in his capacity as Packaging Engineer at Colgate will join the ranks as an Associate Member.

On behalf of the AIP, we thank you for your kind support during 2006 - both in attendance to the various events and in words of encouragement. We look forward to a strong offering to Members and your guests in 2007 but in the meantime, please have a safe and happy Christmas holiday.....best wishes for a prosperous New Year.

Craig Wellman  
NSW AIP Chairman

*Christmas is upon us yet again, a time for family bonding, relatives visiting, catching up with friends, gift giving and over-indulging.*

*To all members and friends of the AIP please enjoy a happy festive season and a safe, healthy and prosperous New Year where our Auspack Seminar will be the highlight of the year.*

*Don't forget that it is far better to give than to receive so if you could just make my presents small and valuable it would be much appreciated.*

Llew Stephens  
National AIP President

## Paul Haberland receives Fellowship

Paul Haberland has been awarded his Fellowship to the Australian Institute of Packaging for his technical knowledge and significant contribution to the Australasian packaging industry and to Nestle.

Paul Haberland is the Packaging Specialist for Nestle and his position has progressively expanded to include oversight of all the Nestle operations within the Oceanic region, encompassing all the operational units within Australia and NZ and beyond.

He is also responsible for the overseeing of education and training on personnel operating in areas of packaging. To the extent that he is both a contributor and organiser of in-company technical training programs. Paul is directly responsible for packaging development within Nestle, a notable example being the new instant coffee jar design.

Paul Haberland holds the Diploma in Packaging Technology and has been a Member of the AIP since 1974.

According to Llew Stephens, National President of the AIP, "Paul's recognition as a Fellow is long overdue and to be recognised by your peers as having made a significant contribution to the industry you work in is a significant milestone for anyone to achieve. The AIP congratulates Paul and asks the industry to do the same."

## NEW MEMBERS

The AIP would like to welcome the following new members...

**Ian Keating**  
**Jie Zhang**

**Associate**  
**Associate**

Read Sharon Givoni's Packaging book reviews.
